“You can not build a reputation  
on what you are *Going to Do!*”

---

The success of any undertaking, however good the intentions may be, in order to be successful, must be based upon actual, successful experience, and not merely upon promises or good intentions.

Remember, the Auction Service I offer you is the results of more than TWENTY-FIVE YEARS of actual, successful experience, during which time some of the most important collections of America were successfully handled by me.

My methods are not based upon guess work. They are the results of a careful life-long study of numismatics from a scientific and not only a commercial standpoint, but from a salesmanship end as well, as is evidenced by my announcement booklets, letters, follow-up system, etc., which has never yet been equalled in this profession.

And with it all—with my record of more than twenty-five years of success—you have more than ample financial and other security to guard you against loss of any kind.

Therefore, when you think of selling your collection, invest in a two-cent stamp and ask for my terms. You will find it a profitable investment to you.

Cordially yours,

*Barre Mell*

PLEASE MAIL YOUR BIDS EARLY

# **To Avoid Misunderstanding Please Read These Terms of Sale Before Bidding**

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

## **I CHARGE NO COMMISSION FOR EXECUTING BIDS**

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalogue. This guarantee holds good indefinitely.

## **NOTICE TO NEW BIDDERS**

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

**TERMS:** The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent of their bids, or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

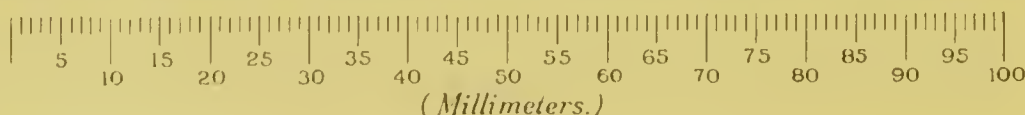

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

**PLEASE SEND IN YOUR BIDS EARLY.** All bids must be in on or before Tuesday, December 11th, 1928.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

The size of Coins and Medals in this Catalogue is given by Millimeters.

BIDS ARE AT SO MUCH PER EACH PIECE

[illegible]

Parties unknown to me and having no previous credit established at my Sales must send a deposit with bid

## THE VERY RARE RUSSIAN PLATINUM COINS.

- 1392 Russia, 1829, 3 Roubles, platinum. Second year of issue. Perfect brilliant proof. A beautiful and very rare coin. Has a record of well over \$40.00. First coined in 1828 and discontinued in 1845, since which time the value of platinum has so greatly advanced that by far the greater number of all these coins have been melted and used for commercial purposes.
- 1393 1832 3 Roubles, as last. Slightly dulled proof. Very rare.
- 1394 1842, 3 Roubles, as last. Light die breaks on obverse; a pin-point nick on reverse; otherwise very fine and very rare.
- 1395 1830, Six Roubles. Second year of issue of this denomination. Practically uncirculated with proof surface. Total of less than fifteen thousand specimens of the Six Rouble piece was struck in the seventeen years in which platinum coins were issued. Extremely rare and valuable. Record over \$100.00.
- 1396 1832, Six Roubles. As last but of a different die. Proof; field slightly rubbed from handling, but nearly a perfect brilliant proof. Extremely rare.
- 1397 1831, **Twelve Roubles**. Uncirculated, with mint luster. A pin-point nick on reverse edge. A beautiful specimen of this extremely rare and most interesting coin. This, the rarest of the platinum coins, was issued from 1830 to 1845, during which time a total number of only 3,474 specimens were struck, and it is fair to presume that by far the greater number have since been destroyed. This is, I believe, only the second or third specimen I have ever offered at auction. Record over \$150.00.

*I Solicit  
for My Proven  
Successful Sales*

COLLECTIONS OF RARE COINS, OR I WILL  
PURCHASE OUTRIGHT FOR  
IMMEDIATE CASH  
PAYMENT.

Through my extensive advertising for the past more than twenty-five years, I enjoy by far the greatest numismatic market of any other similar firm. In the past four years alone I have spent in actual cash a hundred thousand dollars for magazine advertising, creating new collectors by the hundreds, thereby giving me by far the largest numismatic market.

My sales are all carefully planned, extensively advertised and successfully conducted. In the past several years you have noticed that the greater preponderance of all real fine and important sales were held by me.

Write me for terms. They are no higher than elsewhere. Liberal amounts of cash advanced without interest.

# *Some of My Recent Important Purchases*

Within a period of less than thirty days, I acquired by cash purchase four rather important collections:

*The Sherwood Collection, Providence.*

*The Wile Collection of Gold, Rochester.*

*The Clarke Collection of Early U. S. Gold.*

*And the Large and Valuable Collection of Currency of  
Mr. Alden Scott Boyer, of Chicago.*

You see, my extensive advertising in practically every worthwhile publication in the country (over \$35,000.00 cash to be spent by me within the next five months) gives me, of course, a channel of distribution not enjoyed by *any other* numismatic market. Hence my ability to pay more for good collections and duplicates than any other market. So when you think of selling your collection or any portion of it at auction or for immediate cash, all I ask is an opportunity to **SHOW** you the satisfactory and profitable service I can render you. At any rate, write me.

Remember, I have more than a quarter of a century of **PROVEN SUCCESS** to my credit and at your service.
